- Optimization
- API integration
- Env Variables setup
- Deploy

Experience

Software Developer
Folcode SA | July 2021 – May 2023

- **UI Implementation and Business Logic Development**: Implemented user interface designs and developed business logic requirements for each frontend view.
- **Collaborative IT Development**: Worked alongside other IT members to plan, design, and develop efficient and scalable solutions.
- **Customer-Focused Software Design**: Designed and developed software that met client needs, ensuring high-quality delivery.
- **Unit Testing, API Integration, and Bug Fixing**: Conducted unit tests, handled REST API development, and fixed bugs to ensure smooth functionality.
- **Database Analysis and Redesign**: Analyzed and redesigned a database to align with the specific project requirements.

- **Endpoint Development**: Developed API endpoints for consumption in the frontend, enhancing data flow and user experience.

Contributed to the development of various projects, including:

MobyDigital SA | May 2023 - Present

Actually working on ICBC mobile app

Investment Funds: I developed screens and business logic for the investment funds section, benefiting thousands of direct users.

Payments Module Refactoring: I carried out redesigns and refactoring in the payments module of the application, handling highly complex code. These improvements optimized user interaction with the platform, increasing efficiency and user experience.

Migration of Travel Notifications Functionality: I participated in the development and migration of the travel notifications feature, enabling users to activate the use of their cards abroad, improving their experience.

Education

Computing Sciences Career (3rd year)
National University of San Juan, San Juan, Argentina

Certificates

¡FELICITACIONES!

EMILIANO AGÜERO

Gracias por participar en la primera edicion de los entrenamientos individuales de Folcademy y por habernos elegido para formarte durante dos meses en el rol de: Frontend Developer.

¡Muchas gracias por ser parte!

🚀 🤍 🙌
